

**Global Entertainment Technology, Inc., (“GET”)  
CEO Dain Schult, Announces Final Stage Research  
on The Big Kahuna Roll Out**

American Internet & Radio

AUGUSTA, GA, UNITED STATES, August 23, 2016 /[EINPresswire.com](http://EINPresswire.com/)/- GET, through its American Internet & Radio (“AIR”) division, has commenced the final stage of external research on a new radio programming format - “The Big Kahuna <sup>SM</sup>” that will be geared primarily to Baby Boomers as “The Soundtrack of Your Life.” Designed to weave the various decades of rock music together along with musical flavoring with select elements of Rhythm and Blues, Jazz and Country, the format will also feature comedy bits from various comedians and radio station morning show hosts from years gone by.

GET CEO, Dain L. Schult, remarked, “The music library of this format is so large and deep that there will be no complaints about songs repeating too often. Based on our initial research a large number of target listeners actually do like all kinds of music. They aren’t just stuck in one gear – one particular genre.”

The Big Kahuna will be utilized in both terrestrial and Internet Radio station environments and have several programming sub elements such as “Segue City <sup>SM</sup>” and specialty short form weekend programs.
