

American Internet & Radio will feature a series of special one-hour short form Baby Boomer programs every Saturday night, rotating between the following shows and others that are still under development. These copyrighted shows will be featured on AIR's own stations as well as offered through syndication by Amerirep.

SATURDAY NIGHT AT THE RADIO

Every Week
A Different Show

Theatre of the Mind time as we take you for a ride on the Dixie Flyer somewhere between Chicago and Miami. Bluegrass music and comedy melded into a one-hour, once a month Saturday evening presentation.

Saturday night coming at you from Nuevo Laredo or Villa Acuna across the Rio Grande as we relive the grand old days of the Border Radio stations that filled the US airwaves with country music, wild commercials and Holy Rolling fun.

The Puppet Boy Show—featuring nationally known ventriloquist, Mark Merchant as he puts an entirely different twist on the old Edgar Bergen/Charlie McCarthy radio shows of the past. Another once a month Saturday night feature.

Saturday Night Dance Fever

The Beat Never Stops

An hour long dance party featuring different genres of music every time it's on... just try to sit there and listen to it without getting up and dancing around the room...

American Internet & Radio

A unique way to go with syndicated short form weekend programming—a different show every week—one hour of fun and entertainment that engages the audience.
